# EU PRIORITIES

The EU's key funding programme for research and innovation:

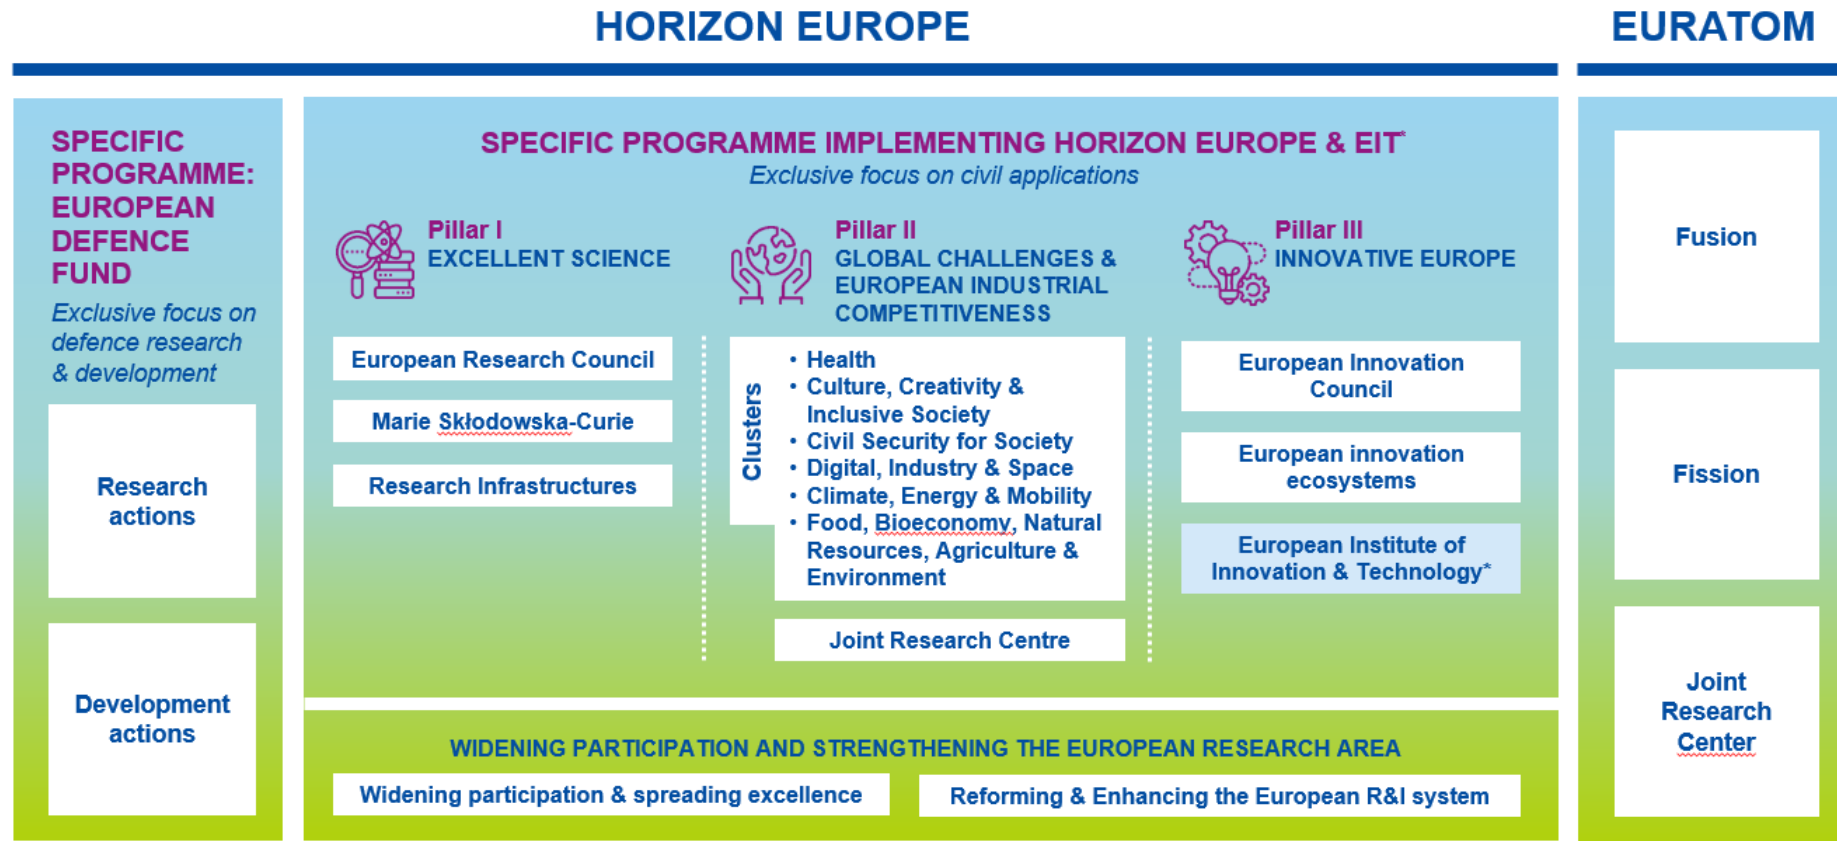

- Tackles climate change
- Helps to achieve the UN's Sustainable Development Goals
- Boosts the EU's competitiveness and growth
- Facilitates collaboration and strengthens the impact of research and innovation in developing, supporting and implementing EU policies while tackling global challenges
- Supports the creation and better diffusion of excellent knowledge and technologies
- Creates jobs, fully engages the EU's talent pool, boosts economic growth, promotes industrial competitiveness and optimizes investment impact within a strengthened European Research Area.

# Keeping the EU at the forefront of global research and innovation

- **Maximise its impact** and deliver on the EU's strategic priorities, such as the recovery, green and digital transitions, and tackles global challenges to improve the quality of our daily lives;
- **Strengthen EU science and technology** by increasing investment in highly skilled people and cutting-edge research;
- **Foster the EU's industrial competitiveness** and its innovation performance, notably supporting market-creating innovation via the European Innovation Council and the European Institute of Innovation and Technology;
- Enhance **access to excellence for researchers across Europe** to foster participation and collaboration.
